Systems & Networking: Windows Server, Active Directory, Group Policy, DNS, DHCP, Windows, Linux, RHEL, VMware
Cloud & Security: OpenStack, cloud networking, access control, RBAC, data protection, firewalld
IT Support: Help desk, ticketing, password resets, account lockouts, remote support, hardware repair, imaging, software updates
Development & Data: HTML, CSS, JavaScript, Python, SQL, database design

PROFESSIONAL EXPERIENCE

IT Help Desk Support | Southern Illinois University | Carbondale, IL **Feb 2026 – Present**

- Provide technical support through phone, live chat, and ticketing channels for students, faculty, and staff.
- Investigate account lockouts and authentication issues using administrative tools and Splunk; assist with password resets and MFA.
- Troubleshoot network connectivity, software, account, and website issues and document resolutions in support tickets.

Clerk | Walmart | Marion, IL | **Feb 2025 – Feb 2026**

- Customer Service: Greet shoppers, answer questions about item locations or prices, and handle returns or exchanges.
- Cash Handling: Process payments via cash, credit, or debit using point-of-sale (POS) systems and provide correct change.
- Store Maintenance: Stock shelves, organize displays, clean sales floors, and manage inventory levels.

IT Intern | Shawnee Community College | Ullin, IL | **Jan 2025 – Apr 2025**

- Performed hardware repair, software updates, computer imaging, cable management, and domain setup.
- Installed, assembled, prepared, and deployed computers and other technology equipment.

Sales Lead | Fivebelow | Paducah, Ky | **Nov 2021 – Aug 2023**

- Team Supervision: Directs floor coverage, assigns daily tasks, and coaches associates to hit sales targets.
- Store Operations: Handles opening and closing duties, register transactions, and cash handling.
- Customer Support: Resolves customer complaints and models strong selling and clienteling behaviors.
- Inventory Management: Assists with visual merchandising, price changes, and stock replenishment.

Clerk | Fivebelow | Paducah, Ky | **Nov 2019 – Nov 2021**

- Customer Service: Greet shoppers, answer questions about item locations or prices, and handle returns or exchanges.
- Cash Handling: Process payments via cash, credit, or debit using point-of-sale (POS) systems and provide correct change.
- Store Maintenance: Stock shelves, organize displays, clean sales floors, and manage inventory levels.

SELECTED TECHNICAL PROJECTS

- **Splunk SOC Home Lab:** Built a Windows security monitoring lab with Splunk Enterprise, Universal Forwarder, Sysmon, and Windows Security logs; investigated failed logins and created SPL detection logic.
- **OpenStack Cloud Security Labs:** Configured cloud networking, virtual resources, access control, secure deployment practices, and data-protection controls.
- **Windows Server Administration Labs:** Configured Active Directory Domain Services, domain membership, Group Policy, DNS, and DHCP in a virtualized Windows Server environment.
- **Red Hat Enterprise Linux Labs:** Used the Linux CLI and firewalld to manage system administration tasks, firewall zones, services, and network ports.
