Section 1: Hands-On Demonstration

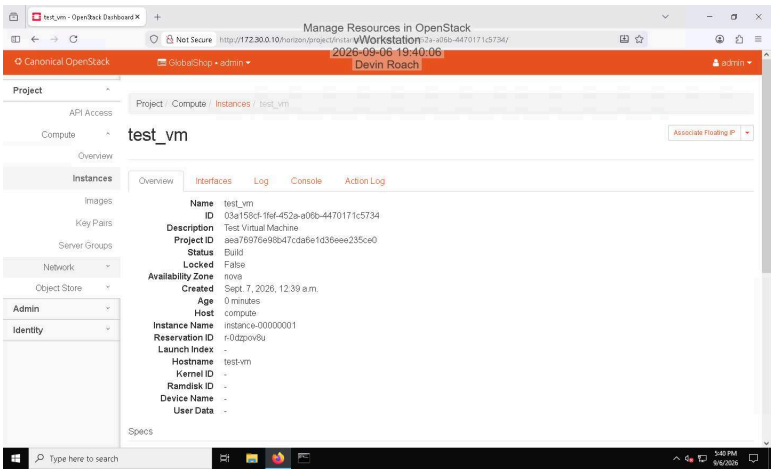

Part 1: Manage Virtual Machine Images

17. **Make a screen capture** showing the **custom properties for the alpine image**.

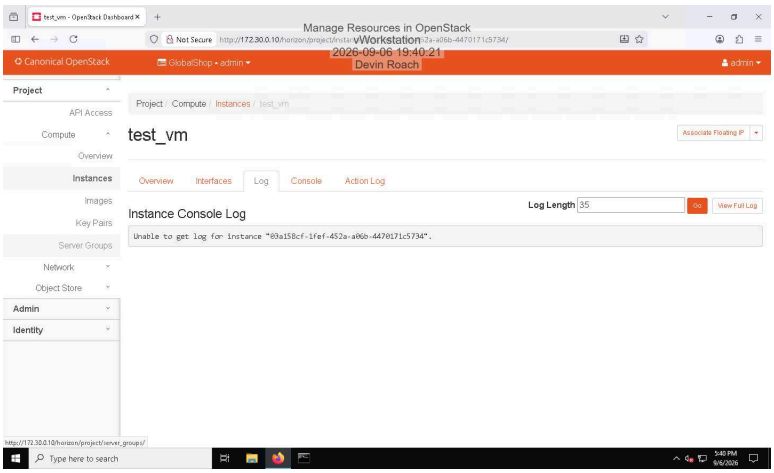

Part 2: Manage Virtual Machine Instances

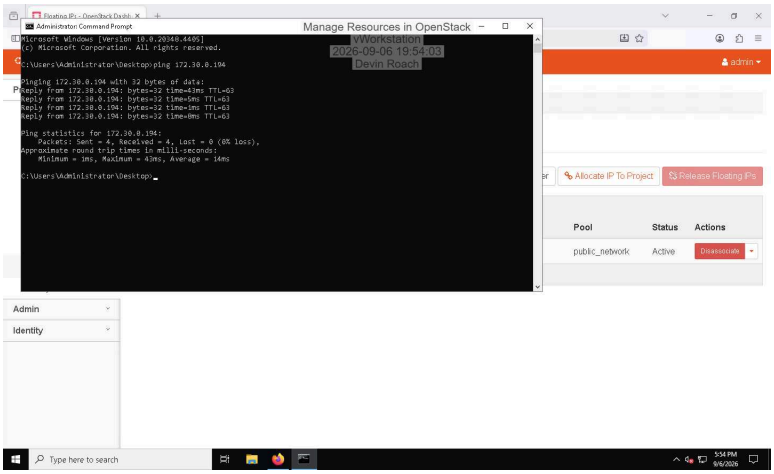

14. **Make a screen capture** showing the **top section of the Overview tab for the test_vm instance**.

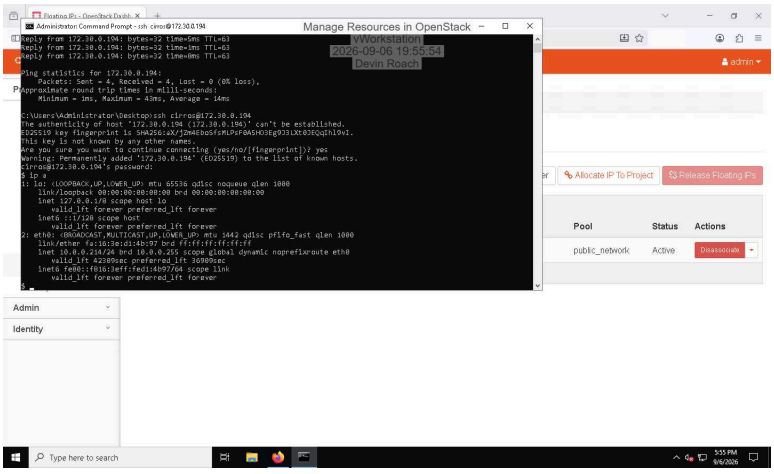

16. **Make a screen capture** showing the **end of the test_vm Log messages with the login prompt**.

28. **Make a screen capture** showing the **successful ping results for test_vm**.

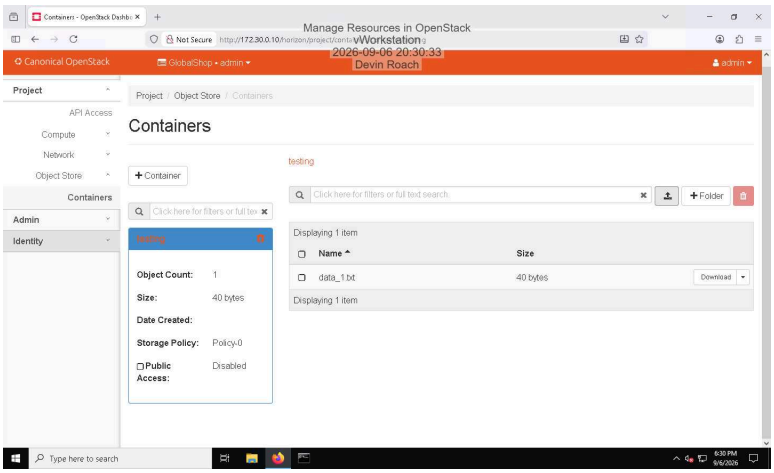

33. **Make a screen capture** showing the **network configuration for test_vm**.

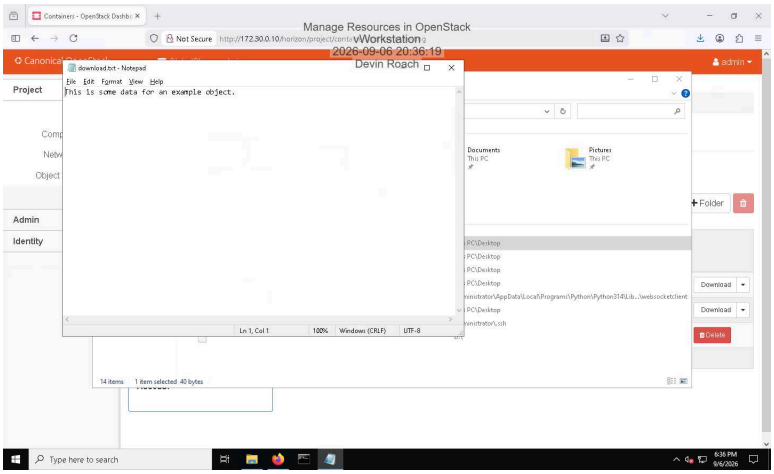

Part 3: Manage Storage Objects

10. **Make a screen capture** showing the **data_1.txt object in the testing container**.

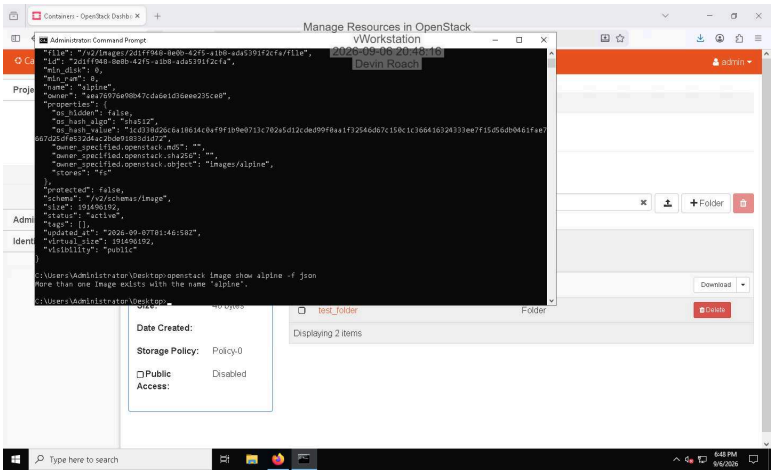

21. **Make a screen capture** showing the **contents of the download.txt file**.

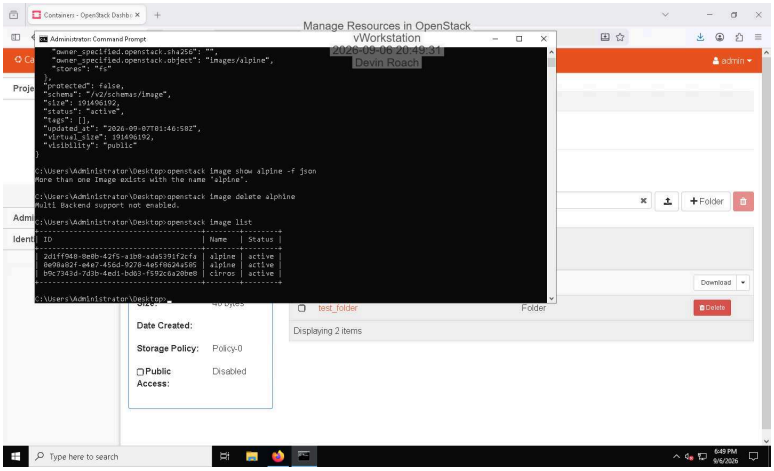

Section 2: Applied Learning

Part 1: Manage Virtual Machine Images with the CLI

6. **Make a screen capture** showing the **details for the alpine image on the command line**.

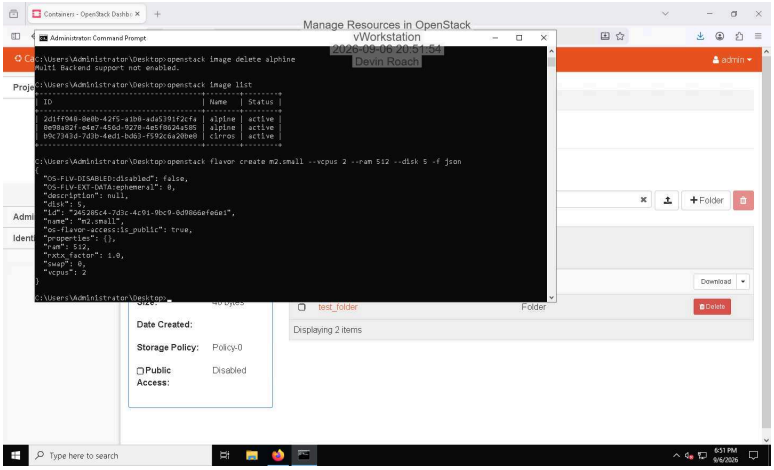

9. **Make a screen capture** showing the **delete command followed by the list command and the results**.

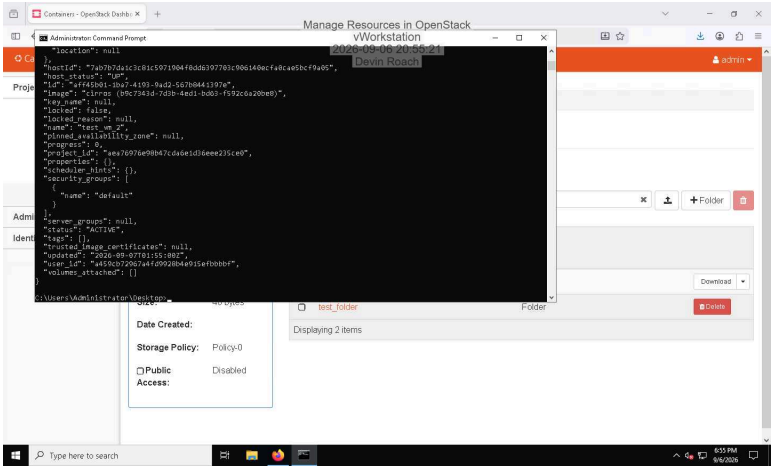

Part 2: Manage Virtual Machine Instances with the CLI

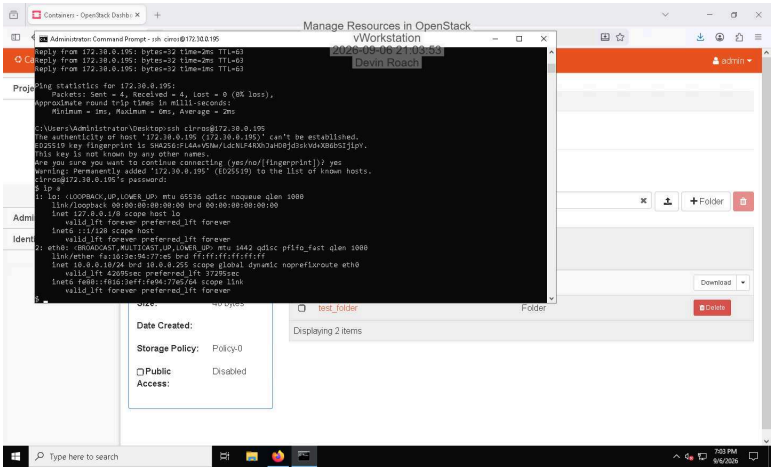

2. **Make a screen capture** showing the **details of the new m2.small flavor**.

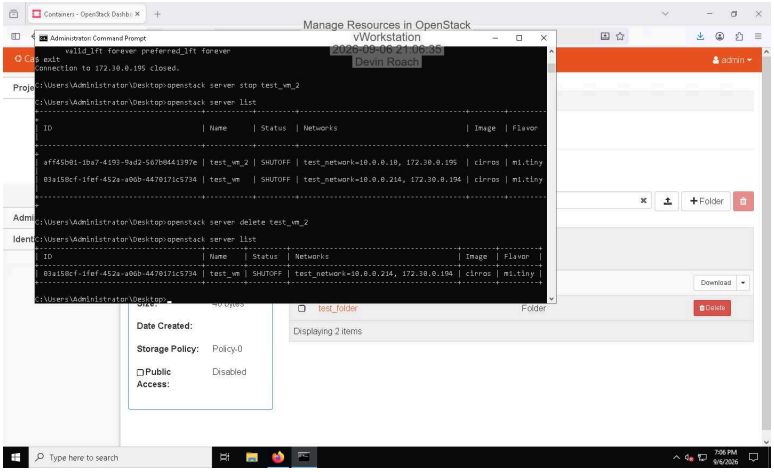

6. **Make a screen capture** showing the **ACTIVE status for test_vm_2 using the command line**.

12. **Make a screen capture** showing the **network configuration for test_vm_2**.

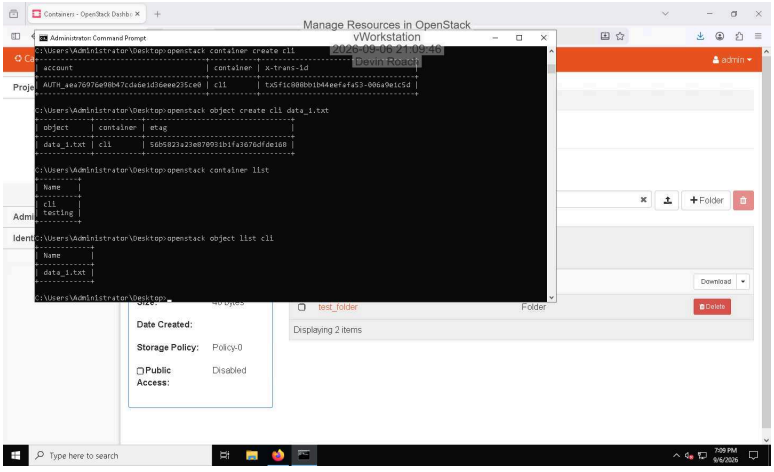

18. **Make a screen capture** showing the **stop and delete commands for test_vm_2 and their output**.

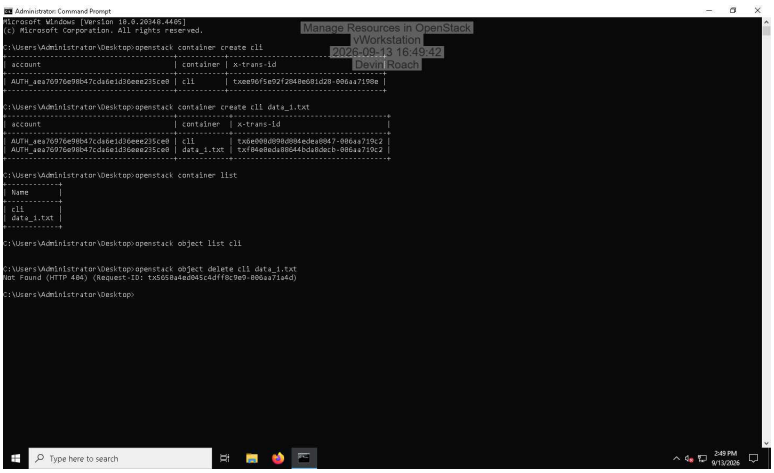

Part 3: Manage Storage Objects with the CLI

5. **Make a screen capture** showing the **results of the container and object list commands**.

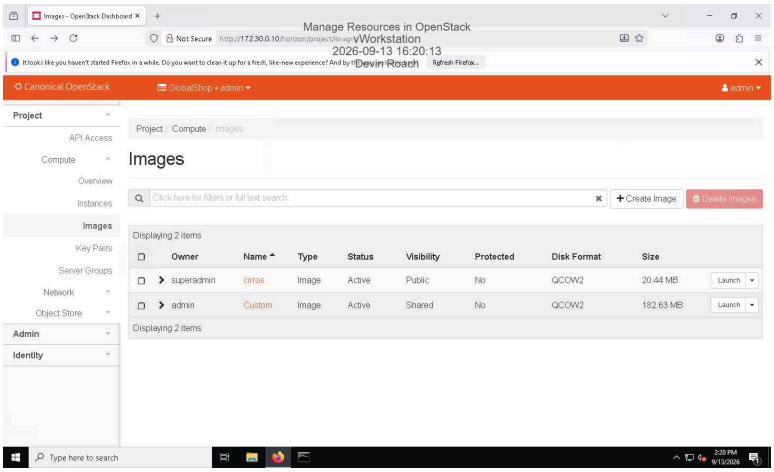

8. **Make a screen capture** showing the **delete and list commands on the cli container and their output**.

Section 3: Challenge and Analysis

Part 1: Create a Custom Image

3. **Make a screen capture** showing an **available snapshot using either the Horizon dashboard or the command line**.

Part 2: Create a VM Using a Custom Image

2. **Make a screen capture** showing the **changes in the new running instance**.
